## **SUPPLEMENTARY INFORMATION:**

### **Proposed Project**

#### **“Consumer Assessment of Healthcare Providers and Systems (CAHPS) Home and Community Based Services (HCBS) Survey Database.”**

AHRQ requests that OMB reapprove AHRQ’s collection of information for the AHRQ Consumer Assessment of Healthcare Providers and Systems (CAHPS) Database for Home and Community-Based Services: OMB Control number 0935-0245, expiration October 31, 2022.

The CAHPS Home and Community-Based Services (HCBS) Survey Database consists of data from the HCBS CAHPS Survey,

which is the first cross-disability survey of home and community-based service beneficiaries’ experience receiving long-term services and supports. It is designed to facilitate comparisons across state Medicaid HCBS programs throughout the country that target adults with disabilities, e.g., including older adults, individuals with physical disabilities, persons with developmental or intellectual disabilities, those with acquired brain injury and persons with severe mental illness.

The HCBS CAHPS Survey was developed by the Centers for Medicare & Medicaid Services (CMS) for voluntary use by state Medicaid programs, including both fee-for-service HCBS programs as well as managed long-term services and supports (MLTSS) programs. States with adequate sample sizes may consider using survey metrics in value-based purchasing initiatives. The HCBS CAHPS Database serves as a primary source of data available to states, agency programs and researchers to help answer important questions related to beneficiary experiences. AHRQ, through its contractor, collects and makes available de-identified survey data, enabling HCBS programs to identify areas where quality can be improved.

Aggregated HCBS Database results are made publicly available on AHRQ's CAHPS website.

Technical assistance is provided by AHRQ, through its contractor, at no charge to programs, to facilitate the access and use of these materials for quality improvement and research. Technical assistance is also provided to support HCBS CAHPS data submission.

The HCBS CAHPS Database supports AHRQ's goals of promoting improvements in the quality and patient-centeredness of health care in home or community-based care settings. This research has the following goals:

1. Improve care provided by individual providers and state programs.
2. Offer several products and services, including providing survey results presented through the AHRQ Data Tools website, summary chartbooks, custom analyses, private reports and data for research purposes.
3. Provide information to help identify strengths and areas with potential for improvement in patient care.

This study is being conducted by AHRQ through its contractor, Westat, pursuant to AHRQ's statutory authority to conduct and support research on health care and on systems for the delivery of such care, including activities with respect to the quality, effectiveness, efficiency, appropriateness and value of healthcare services; quality measurement and improvement; and health surveys and database development 42 U.S.C 299a(a)(1), (2), and (8).

### **Method of Collection**

The development and operation of the HCBS CAHPS Database will include the following major components undertaken by AHRQ through its contractor. To achieve the goals of this project, the following activities and data collections will be implemented:

- Registration with the site to obtain an account with a secure username and password: The point-of-contact (POC) completes an online registration form, providing contact and organizational information required to initiate the registration process.

- Submission of signed Data Use Agreements (DUAs) and survey questionnaires: The data use agreement completed by the participating organization provides confidentiality assurances and states how the data submitted will be used.
- Submission of program information form: The POC completes an online information form to describe organizational characteristics of the program.
- Submission of de-identified survey data files: POCs upload data files in the format specified in the data file specifications to ensure data submitted is standardized and consistently named and coded.
- Follow-up with submitters in the event of a rejected file, to assist in making corrections and resubmitting the file.

### **Estimated Annual Respondent Burden**

Exhibit 1 shows the estimated burden hours for the respondents to participate in the database.

The 51 POCs in Exhibit 1 represent the 51 states or agencies that will administer the Adult HCBS survey. An estimated thirteen survey vendors will assist them.

Each state or agency will register online for submission. The online Registration form will require about 5 minutes to complete. Each submitter will also complete a program information form of information about each program such as the name of the program, program size, state, etc. The online program information form takes on average 5 minutes to complete. The data use agreement will be completed by each of the 51 participating States. Survey vendors do not sign or submit DUAs. The DUA requires about 3 minutes to sign and return by fax or mail. Each submitter, which in most cases will be the survey vendor performing the data collection, will provide a copy of their questionnaire and the survey data file in the required file format. Survey data files must conform to the data file layout specifications provided by the HCBS CAHPS Database. Since the unit of analysis is at the program level, submitters will upload one data file per program. Once a data file is uploaded the file will be automatically checked to ensure it

conforms to the specifications and a data file status report will be produced and made available to the submitter. Submitters will review each report and will be expected to correct any errors in their data file and resubmit if necessary. It will take about one hour to submit the data for each program. The total burden is estimated to be 63 hours annually.

**Exhibit 1. Estimated Annualized Burden Hours**

Form Name	Number of respondents/ POCs	Number of responses per POC	Hours per response	Total burden hours
Registration Form	51	1	5/60	4.25
Program Information Form	51	1	5/60	4.25
Data Use Agreement	51	1	3/60	2.5
Data Files Submission	13	4	1	52
Total	NA	NA	NA	63

Exhibit 2 shows the estimated annualized cost burden based on the respondents' time to complete one submission process. The cost burden is estimated to be \$3,162 annually.

### **Request for Comments**

In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501-3520, comments on AHRQ’s information collection are requested with regard to any of the following: (a) whether the proposed collection of information is necessary for the proper performance of AHRQ’s health care research and health care information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ’s estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency's subsequent request for OMB approval of the proposed information collection. All comments will become a matter of public record.
